

**Block Lane Surgery-Oldham, Greater Manchester**

**SALARIED GP REQUIRED**

We are looking to recruit a salaried GP for 4 - 6 sessions per week. We are flexible and will be happy to consider different working patterns.

We are a friendly GMS training practice which serves a diverse population of approximately 5400 patients. We are located in Chadderton, on the outskirts of Oldham. The location offers great transport links and is located close to the M60 motorway.

We are keen to work smartly, and currently use various systems including EMIS, Docman, AcuRx and GP TeamNet to ensure we are paper light and efficient. This helps us achieve highly on QOF and local enhanced services. We are currently engaged in video and e-consultations which allows patients and clinicians flexibility.

We are actively engaged with the Primary Care Network who is in the process of employing additional health professionals; which include physiotherapy, clinical pharmacist and social prescribers.

Two of the GPs are Foundation doctor supervisors and supervise 3 FY2's currently. We are in the process of taking on 2 GPSTs who are due to start in February.

We are keen on continuing professional development and look for opportunities to encourage and support clinical and non-clinical staff to engage in developing new skills and area of interest.

We are looking to offer a competitive pay and holiday package which will be discussed at the interview.

If you are interested in joining our team, please email your C.V., plus a covering letter to [manish.asrani@nhs.net](mailto:manish.asrani@nhs.net)

We welcome informal visits to the practice, please telephone 01616525676 and ask to speak to Dr.Manish P Asrani, GP Partner.
